Economic Impact Or Contribution: Essays On Business And Community Relations

Synopsis

Economic Impact or Contribution contributes to the applied regional economic literature by providing a framework for handling a diverse set of projects and providing detailed case studies of fieldwork regarding the health care industry, higher education institutions, the nonprofit sector, infrastructure investment, and a major musical entertainment event. Economic Impact or Contribution accomplishes three major tasks by answering the following questions: What are the differences between the economic concepts used in economic versus fiscal assessment studies? How can we structure an economic and business issue or challenge? How can we create a research product that helps the project's sponsors solve their problem? This book has emerged as an answer to many research-related questions in dealing with regional business and economic issues and challenges.
