Synopsis

NOTE: The 2017 edition of this book is now available! Be sure to purchase that more up-to-date edition! Written by an elder law attorney with over 25 years of experience, this book will help anyone with a family member faced with a long-term stay in a nursing home who wishes to preserve at least some of their assets by qualifying for the Medicaid program. You don't have to be broke to qualify! For the first time ever, the inside secrets of high-priced estate planning and elder law attorneys are revealed. Includes a summary of all income and asset rules for both married and single individuals, together with numerous examples and several case studies, which take the reader through the same thought processes that an experienced elder law attorney would go through when analyzing a real-life client's situation. The book includes tips on: how to title your home so you do not lose it to the state; how to make transfers to family members that won't disqualify you from Medicaid; how annuities make assets "disappear"; smart tricks for "spending down" your assets; what to change in your will to save thousands of dollars if your spouse ever needs nursing home care; avoiding the state's reimbursement claim following the nursing home resident's death; and much more. The 2012 Sixth Edition has been expanded, revised, and completely updated to incorporate all changes in the law as of January 1, 2012, and includes two chapters on Veterans' benefits.

NOTE: The 2014 edition of this book is now available! Be sure to purchase this more up-to-date edition!

I wrote the first edition of this book in 2006-2007, because I wanted to help people not make foolish mistakes when dealing with a common crisis, that of suddenly being faced with the huge financial costs of moving a family member into a nursing home. As an elder law and estate planning attorney I had been advising clients for over 20 years at that point, but I realized that too often people came to me too late to take advantage of all the great planning techniques I had figured out over the years. I wanted to make sure that people who bought my book would have the same information I was providing to my private clients, but for less than the \$250 an hour I was charging them. Each year I have expanded the techniques available to readers as well as kept the information and government figures up-to-date. The Sixth Edition (2012) of "How to Protect Your Family's Assets from Devastating Nursing Home Costs: Medicaid Secrets" is now out, and I encourage everyone with a parent or other family member facing a long-term nursing home stay to learn the "secret" tools and techniques provided to clients of high-priced attorneys, for a fraction of the cost. Don't wait until it's too late!!

This is an excellent book on helping to protect your assets from nursing home costs.....but you'll still need an attorney that specializes in elder care. Be sure to read the reviews that are posted with this book....it's too much to go into with this note.

This is a must read at any age. The information in this book is quite enlightening, who knew the hoops one needs to jump through at an elder age!! After educating myself, for my very own Mother, I've decided to be a voice for all those who sit silently and are unaware of the circumstances.

This is a very good book for any one wanting to protect their familys assets from medicaid . when you are trying to get medicaid help I have not read all of it yet but so far it tells all you need to do.

Valuable information for people anticipating nursing home costs. Read before it is too late to take required actions.

Great information. Book was just what I ordered. Easy reading. Thank you.

This book offers information to help you understand elder law and Medicaid. I feel much better prepared for my appointment with lawyer.

I have searched for this information everywhere I could think of, and finally found it! I feel like I am now prepared to face the future with a disabled spouse successfully.

Very informative for persons finding themselves in a completely unknown area of life during a very stressful situation. Good read!
