The Sweet Potato story It's called the sweet potato. It grows in the ground, is considered a staple in the diet of the lower economic classes, comes wrapped in an ugly brown skin, doesn't stand out among the vast array of supermarket vegetables, and, to be candid, is just plain ugly.

This is a very nice cookbook. I LOVE SWEETPOTATOES. Many interesting recipes to try! If you eat sweetpotatoes get one!

Has a lot of very interesting recipes. It will take a long time to try all of them. The only drawback to the book is a total lack of pictures (both black and white & color).

I have not made any of the recipes yet. Looked thru the book and found some that I plan on starting to make on a few week. My dear husband just harvested a wheel barrel full of sweet potatoes. Oh my is this book going to come in handy .

Arrived promptly, and have lots of healthy recipes I'll be trying, great assortment of savory & sweet
