Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

This book is the best source of contemporary music for church use I have found - limited by its publishing date. I was looking for something we could use if we ever add a contemporary worship in our church. This is it. While is doesn't have every new song out there, it has, in my opinion, most of them that a band would want to lead and people would like to sing. The only drawback, which is

entirely acceptable for keeping the size of the book down, is that it is a simple arrangement. If you want to sing it like the band on the radio, you will need to repeat some sections. But if you are introducing contemporary music to a church and want a simpler version of the popular songs this might be the way to start.

Chords too simple. No up to date songs

Contemporary Christian in a format I'm used to.

great music BOOK- HAS CHORDS AND LEAD SHEET.

This is an excellent book which allows your piano students to go to the next level and participate in worship teams.

in fact this is a great book from hall Leonard... I was hoping that the chord arrangement was more jazzy with 7th chords etc...but it's worth every buck
