Sacred Number: The Secret Quality Of Quantities (Wooden Books)

Synopsis

Numbers permeate every aspect of our lives; very little happens without a basic ability to manipulate the simple whole numbers we all take for granted. Beautifully illustrated with old engravings as well as contemporary imagery, *Sacred Number* introduces basic counting systems; significant numbers from major religious texts; the importance of astronomy, geometry, and music to number quality; how numbers affect architecture. Lundy explains why the ideas of Pythagoras still resonate, and she profiles each number from one to ten to show its distinct qualities: why, for example, the golden section is associated with five, and seven with the Virgin Mary.

Book Information

Age Range: 8 and up

Series: Wooden Books

Hardcover: 64 pages

Publisher: Bloomsbury USA (July 1, 2005)

Language: English

ISBN-10: 0802714560

ISBN-13: 978-0802714565

Product Dimensions: 5.9 x 0.5 x 0.3 inches

Shipping Weight: 8 ounces (View shipping rates and policies)

Average Customer Review: 4.3 out of 5 stars 18 customer reviews

Best Sellers Rank: #333,319 in Books (See Top 100 in Books) #87 in [Books > Science & Math > Mathematics > Pure Mathematics > Number Theory](#) #58114 in [Books > Children's Books](#)

Customer Reviews

Miranda Lundy has studied the history of number for most of her life. The author of *Sacred Geometry*, she lives in England.

This little book taught me even more about the sacred qualities of numbers than I ever would have imagined! I've studied various numerological systems such as The Enneagram (Helen Palmer is best) and numerology along with crystal studies. I was shocked to see the Enneagram structure in it! This book has a bunch to offer who look for quality over just quantity. We've become too numbed to our mathematics and quantifications. Time to see through a different lens. Highly recommended!

A very good book concerning how our numbering system came to be that which we know today. It

explains how certain numbers can be grouped together and explains what other things in life share that number.

Wooden Book - they are always top quality

Excelent

Great read for someone who wants to begin to understand sacred numbers.It builds the beginning of a foundation and how those concepts transcend into modern day life.

Great book. Great service

I love all of the Little wooden books. Very nice illustrations and concise information.

Tiny book. Not really what I expected.
