Customer Reviews

As a college basketball fan, I found this book to be very interesting. As the book claims on its back cover, it really does provide a behind-the-scenes look at a Division I basketball program. It also provided quite a bit of background information throughout Penders 10 years, all of which culminated in the final season and nasty ending. Not being a Texas fan personally, I recommend it to all college basketball fans who enjoy reading about the greatest sport on earth.
