To celebrate 10 years of creating organic baby food goodness, Happy Family recently launched its first cookbook. Featuring 70 easy-to-follow recipes, the cookbook is the perfect companion to help

you introduce your little ones to new flavors and textures before taste preferences set in and while they're still willing to be adventurous. The coconut milk salmon with cauliflower and spinach and sweet potato and raisin pancakes were big hits in our home. (Chicago Parent) It's a wonderful resource for making baby food at home, and with more than seventy easy-to-prepare recipes made with all-natural ingredients, the Happy Family Organic Superfoods Cookbook offers a fresh, nutritious, and accessible approach that is really helpful. Even better, the recipes are packed with nutrient-rich superfoods that are easy to find at the grocery store (think quinoa, chia, and kale for babies; strawberry-beet pudding with coconut milk and chia for toddlers). (Mamtastic)

Really great cookbook and guide to feeding your baby. The book starts with info on starting solids, providing recipes for purees, and ends with recipes the entire family can enjoy. Clear instructions, easy and creative recipes. Beautiful and whimsical illustrations. This book would make a great gift for a mom who's about to start solids with her little one. My kids loved the baked rice balls with salmon and peas. I look forward to testing out all the recipes.

This cookbook is great! From simple purees to quinoa dishes and muffins- there's a wide variety of

healthy recipes the whole family can enjoy! When I run out of ideas or keep going to the same 'ol dishes for dinner for my little one, I open this for a little inspiration! It's been a hit in my family and with all our friends kiddos too!

First of all this book is beautiful! The perfect gift for a baby shower or special occasion. I absolutely love all the practical information in this book including the Nutrient Guide, serving size guides for baby, portion size guides for toddlers, tips for cooking gluten-free and nutrient rich, picky eaters, feeding-on the go, etc. Also, there are "How Tos" about freezing baby food, storing food and so much more. I especially love the allergen guides for each recipe, which makes things so much easier if you are looking for recipes such as Vegetarian, Egg Free, Gluten-Free, Nut Free, Dairy-Free. The recipes are great for ages 4 months to 3 yrs, and there are soooooo many incredible pictures and inspiring recipes. There is also a little information for each recipe which tells you the significant nutritional value of the ingredients being used in the recipe. All the recipes are easy to make and there is a huge variety to choose from purees, burgers, meatballs, stews, smoothies, kebabs, granola bites, muffins, dips, pies, etc. The index is super easy to use as well so you can find recipes with the ingredients you may have on hand. I just can't stop telling my friends how much I love this book! This is my new go-to gift for all my moms-to-be. Also, it is a great gift for 1st birthdays too! LOVE!

Awesome! Can't wait to utilize this book once baby girl is old enough!

This cookbook is absolutely the perfect gift for moms! I love it. The recipes are simple to follow and yummy. I'm always looking for healthy snack options and there are so many good choices. Almost every recipe has a picture that corresponds to it. These recipes are family friendly for kids and adults.

Tasty recipes, would recommend this book whether you buy organic or not!

Love, Love, Love this cookbook. The recipes are delicious and my baby and I love them. I like that it has recipes for every stage. There's a picture of one of the recipes I made. So easy!

I love this book. So many fun recipes for my picky toddler.
