Advocacy In The Human Services

Synopsis

Advocacy is needed now more than ever. Opportunities to engage in advocacy have increased due to changes at the federal level which are relegating more and more human service funding and decision-making to the state and local level. The purpose of this text is to educate students and professionals so that they have a deeper understanding of advocacy practice in order to fully serve clients.

Customer Reviews

"I do applaud the author's goal of bringing 'together a disparate literature of advocacy and to articulate a comprehensive approach.' Its particular value is that it puts theory and practice about advocacy in one text. In other words, the text is appropriate for students. I love the overall writing style; it's personal and easy to read."

I was underwhelmed with this textbook, but the price was fairly reasonable, so I can't complain.

This is a good read. I ordered it for school as a required text. It came super quick and it was packaged very well. I believe that I'll be keeping this book after the class is over as I really enjoy all of the information contained in it. It's text is not tiny, which makes it even easier to read.

Exactly what i needed for class and has so much info pertaining to my profession.

It was utilized for educational purposes, so it was good

Required reading for course!

The book is a great learning tool, well written and easy to understand. I'll be hesitant about buying used again. There was nothing in the description about all of the highlighting and underlining in the copy I received. Very distracting.

thank you. Very nice.

Excellent - thank you!
