Sol LeWitt: Structures, 1965-2006

Synopsis

Sol LeWitt (1928–2007), renowned for his role in establishing Conceptualism and Minimalism as dominant art movements in the postwar era, is perhaps best known for his masterful and brilliantly colored wall drawings. Throughout his career, however, LeWitt also created many remarkable three-dimensional works suitable for display in outdoor settings. In this handsome publication, which accompanies the first major career survey of LeWitt's "structures," the artist's modular works are traced from their simplest manifestation in a single large-scale cube through multiple variations, with examples from the 1960s through the 1990s. Works from the 1980s onward explore the three-dimensional possibilities of diverse geometric forms, such as stars, and the introduction of new materials, including concrete block and fiberglass, stimulating experimentation with non-geometric, irregular forms on an increasing scale. The book includes essays by Nicholas Baume and Joe Madura that provide curatorial and critical context for the structures. Additional essays by Rachel Haidu, Anna Lovatt, and Kirsten Swenson offer fresh art-historical commentary, ranging from the problematic of site for LeWitt's initial structures to the relationship between abstract conceptual systems, architecture, and urban space. Also included is a never before published conversation among the artist, Baume, and Jonathan Flatley. Stunning color plates record the works on display in Lower Manhattan's City Hall Park, supplemented by archival and historical documentation.

Book Information

Hardcover: 192 pages

Publisher: Other Distribution (January 10, 2012)

Language: English

ISBN-10: 0300178611

Customer Reviews

"The essays making up this exemplary catalogue, a companion for a 2011 Public Art Fund

exhibition of 27 works in New York's City Hall Park, offer rich treatment of LeWitt's intent, concepts, processes, fabrication, and modes of display. . . . Lush photography illustrates the works and frequently the ways in which the public interacted with the "structures" in varied settings."â "J. Decker, Choice

Nicholas Baume is director and chief curator, Public Art Fund.

A beautifully illustrated book but thin in content. Covers only a small percentage of Le Witt's output and seems designed to fulfill the 'coffee-table' display category of art books.

Super ok

Fascinating catalogue of one of the major American artists of the 20th century; great illustrations, good color, printing and text.
